Business training to grow your bottom line

Training to GROW Your Bottom-Line Profits

Discover how ...

- Increasing your price 1% can increase Net Profit 10%+
- Net Profit is made with equipment, not labor
- Moving to big-benefit high-margin comfort can increase Job Profits from 12% to 35%

Is your price right?

Did you know that one of the biggest mistakes contractors make is not properly pricing every job?

What is your selling price?

- Overhead 31%
- Desired profit 10%
- Total job costs \$8,000

You will learn to use ...

- Your Profit and Loss statement to pinpoint profit potential
- Balance Sheet to increase your company's value
- Cash Flow report to eliminate stress before paydays
- Job Gross Margin to significantly improve P&L Gross Margin
- Job GM as your profit-loss early warning system
- Test Ratios to measure and improve activities that produce profits
- 14 Profit Improvement Indicators™ to maximize profitability
- 12 Month Profits Improvement Report to manage profitability

Testimonial

"The program teaches you to understand where your business currently stands, so that you can set proper goals for the future. It also gives you tips on how to reach those goals. I plan to create a detailed P&L, one for each area of the company. When determining job cost I plan to use 'margin' not 'mark-up'."

Melissa Tyler
Trenton, SC

Who Should Attend

Owners, managers, bookkeepers, accountants, TMs and anyone else involved in the success, planning or financial wellbeing of your business.

Your Instructor

GROW uses basic math and simple formulas, but your instructor won't let your class get too deep or become boring, in fact you'll have a lot of fun! Your instructor is not only an entertaining communicator he has years of real-world hvac business experience and is anxious to share all the little things that will make GROWing your profits easier, more fun and a lot less stressful.

Are You Willing to Change?

Since 1985 we have helped thousands of contractors become wealthy. All shared one thing in common ... they were willing to change to a better way. Finding time to review weekly Job GM and Unapplied Labor Reports will requires change. Using your Profit Improvement Tools to make better management decisions takes change. Keeping your mind focused on ways to improve profits involve change. So is all this change really necessary?

According to business guru W. Edward Deming;
Change is not necessary ... because survival isn't mandatory.
